HALO DESIGN

The Brand

Our values

Danish identity

Halo Design was founded in 1994 by the Danish entrepreneur Michael Waltersdorff at the age of 18.

Nordic design

We believe that by studying our roots and constantly developing a modern design language, our light solutions are highly distinctive yet recognizable on the global market.

Functionality

We want our products to improve everyday life. For this reason, we integrate our lamps with interesting features that enhance the user experience in original ways.

Value for money

Good design is truly great when it can offer a unique experience at a reasonable price. We always seek to develop feasible solutions that balance aesthetics and functionality.

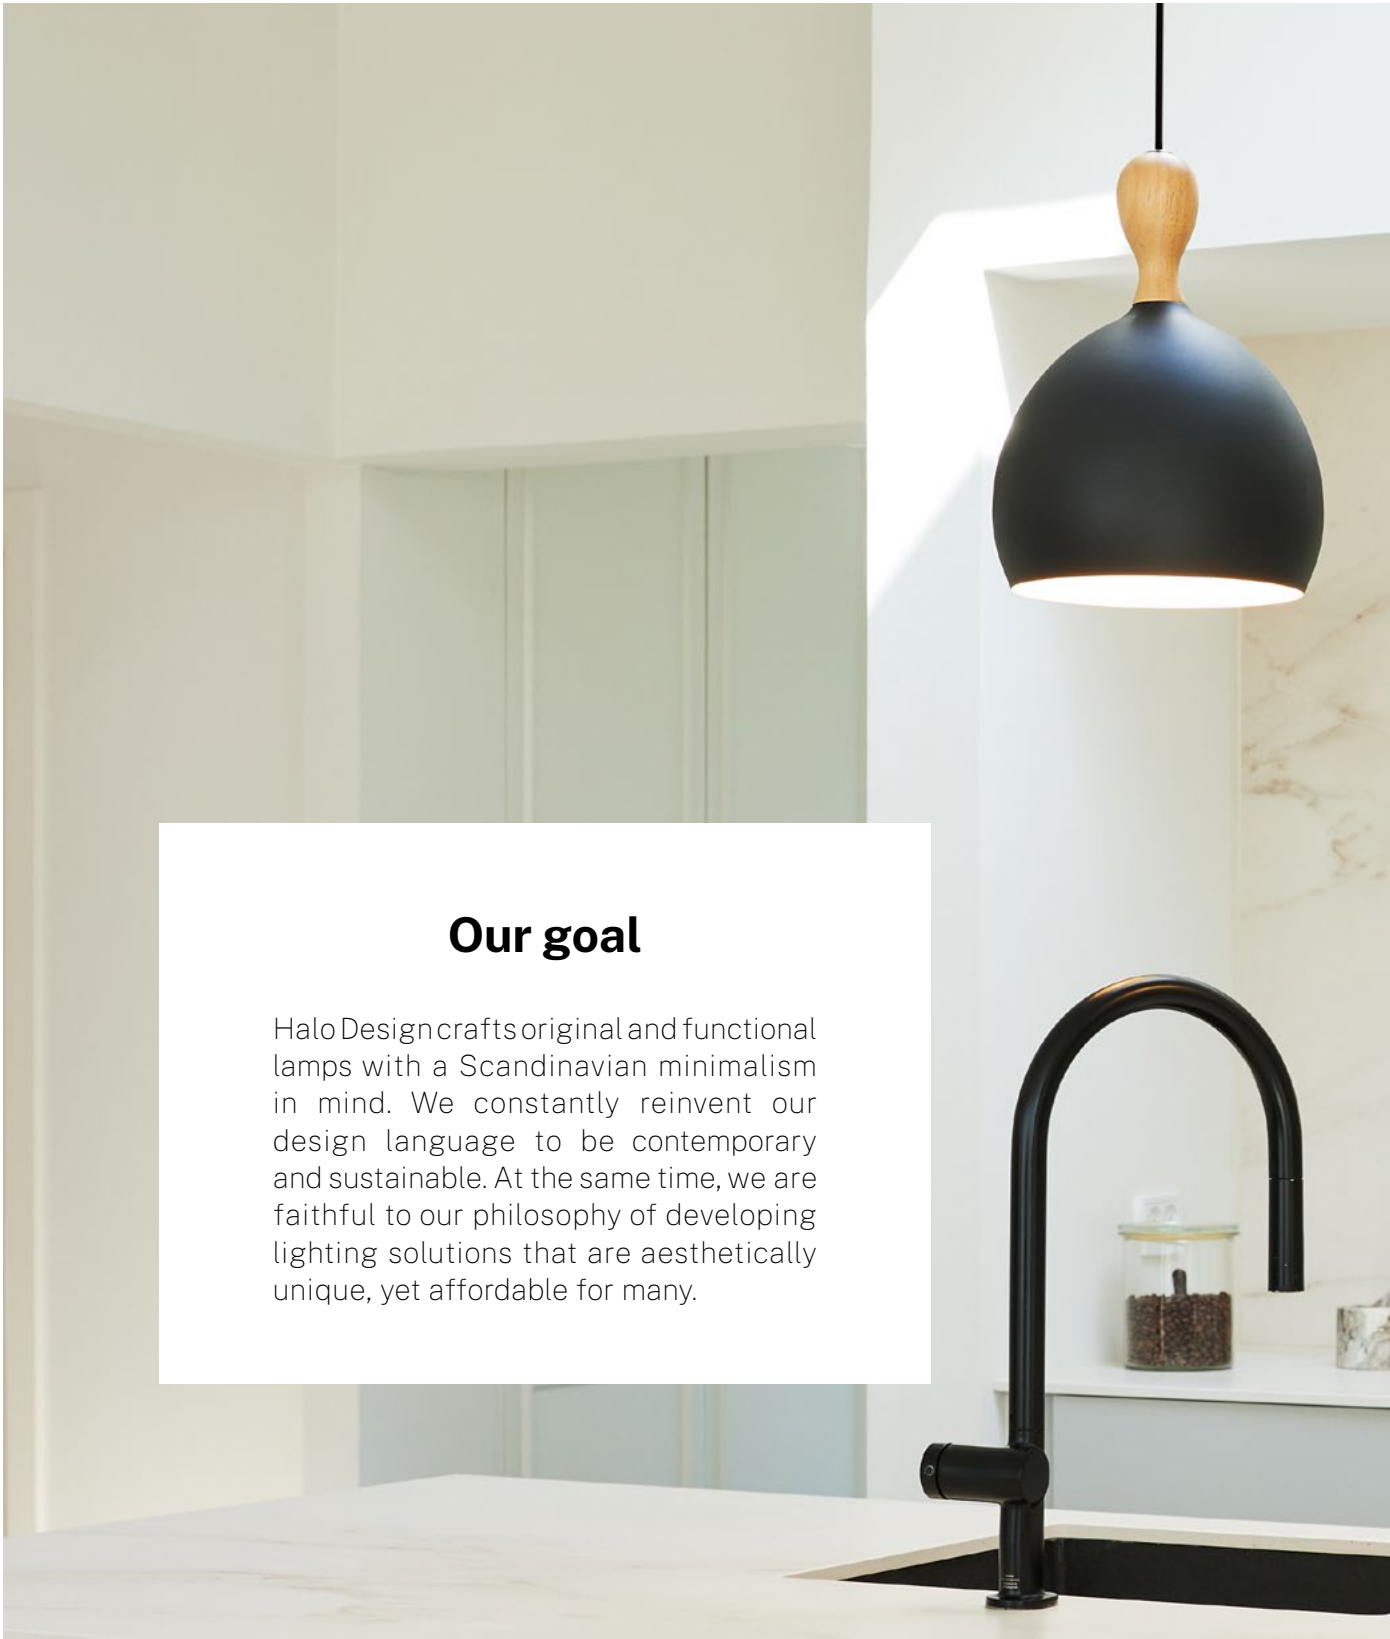

The light that surrounds us defines how all things look and has a strong influence on our state of mind. We believe that a positive and cozy environment needs the appropriate light to make people comfortable.

Technology today enables us to deliver customizable and highly efficient light that can enhance our feelings. Therefore, lamps must be functional and technically advanced to integrate organically in an environment to make us feel at home.

Our goal

Halo Design crafts original and functional lamps with a Scandinavian minimalism in mind. We constantly reinvent our design language to be contemporary and sustainable. At the same time, we are faithful to our philosophy of developing lighting solutions that are aesthetically unique, yet affordable for many.

PARIS

MESH

Designed by Emanuele Patton & Michael Waltersdorff

Owner and Art Director

Michael Waltersdorff

Born in Hellerup (Denmark) in 1975, he is a self-taught Danish designer. His designs includes several classics for Halo Design Copenhagen, which he founded in 1994 at the age of 18 years.

He is currently the Owner and the Design Director of the brand 'Halo Design' and 'COLORS' specialising in lighting, gadgets and light bulbs. His works are being distributed all over Europe.

Art Director

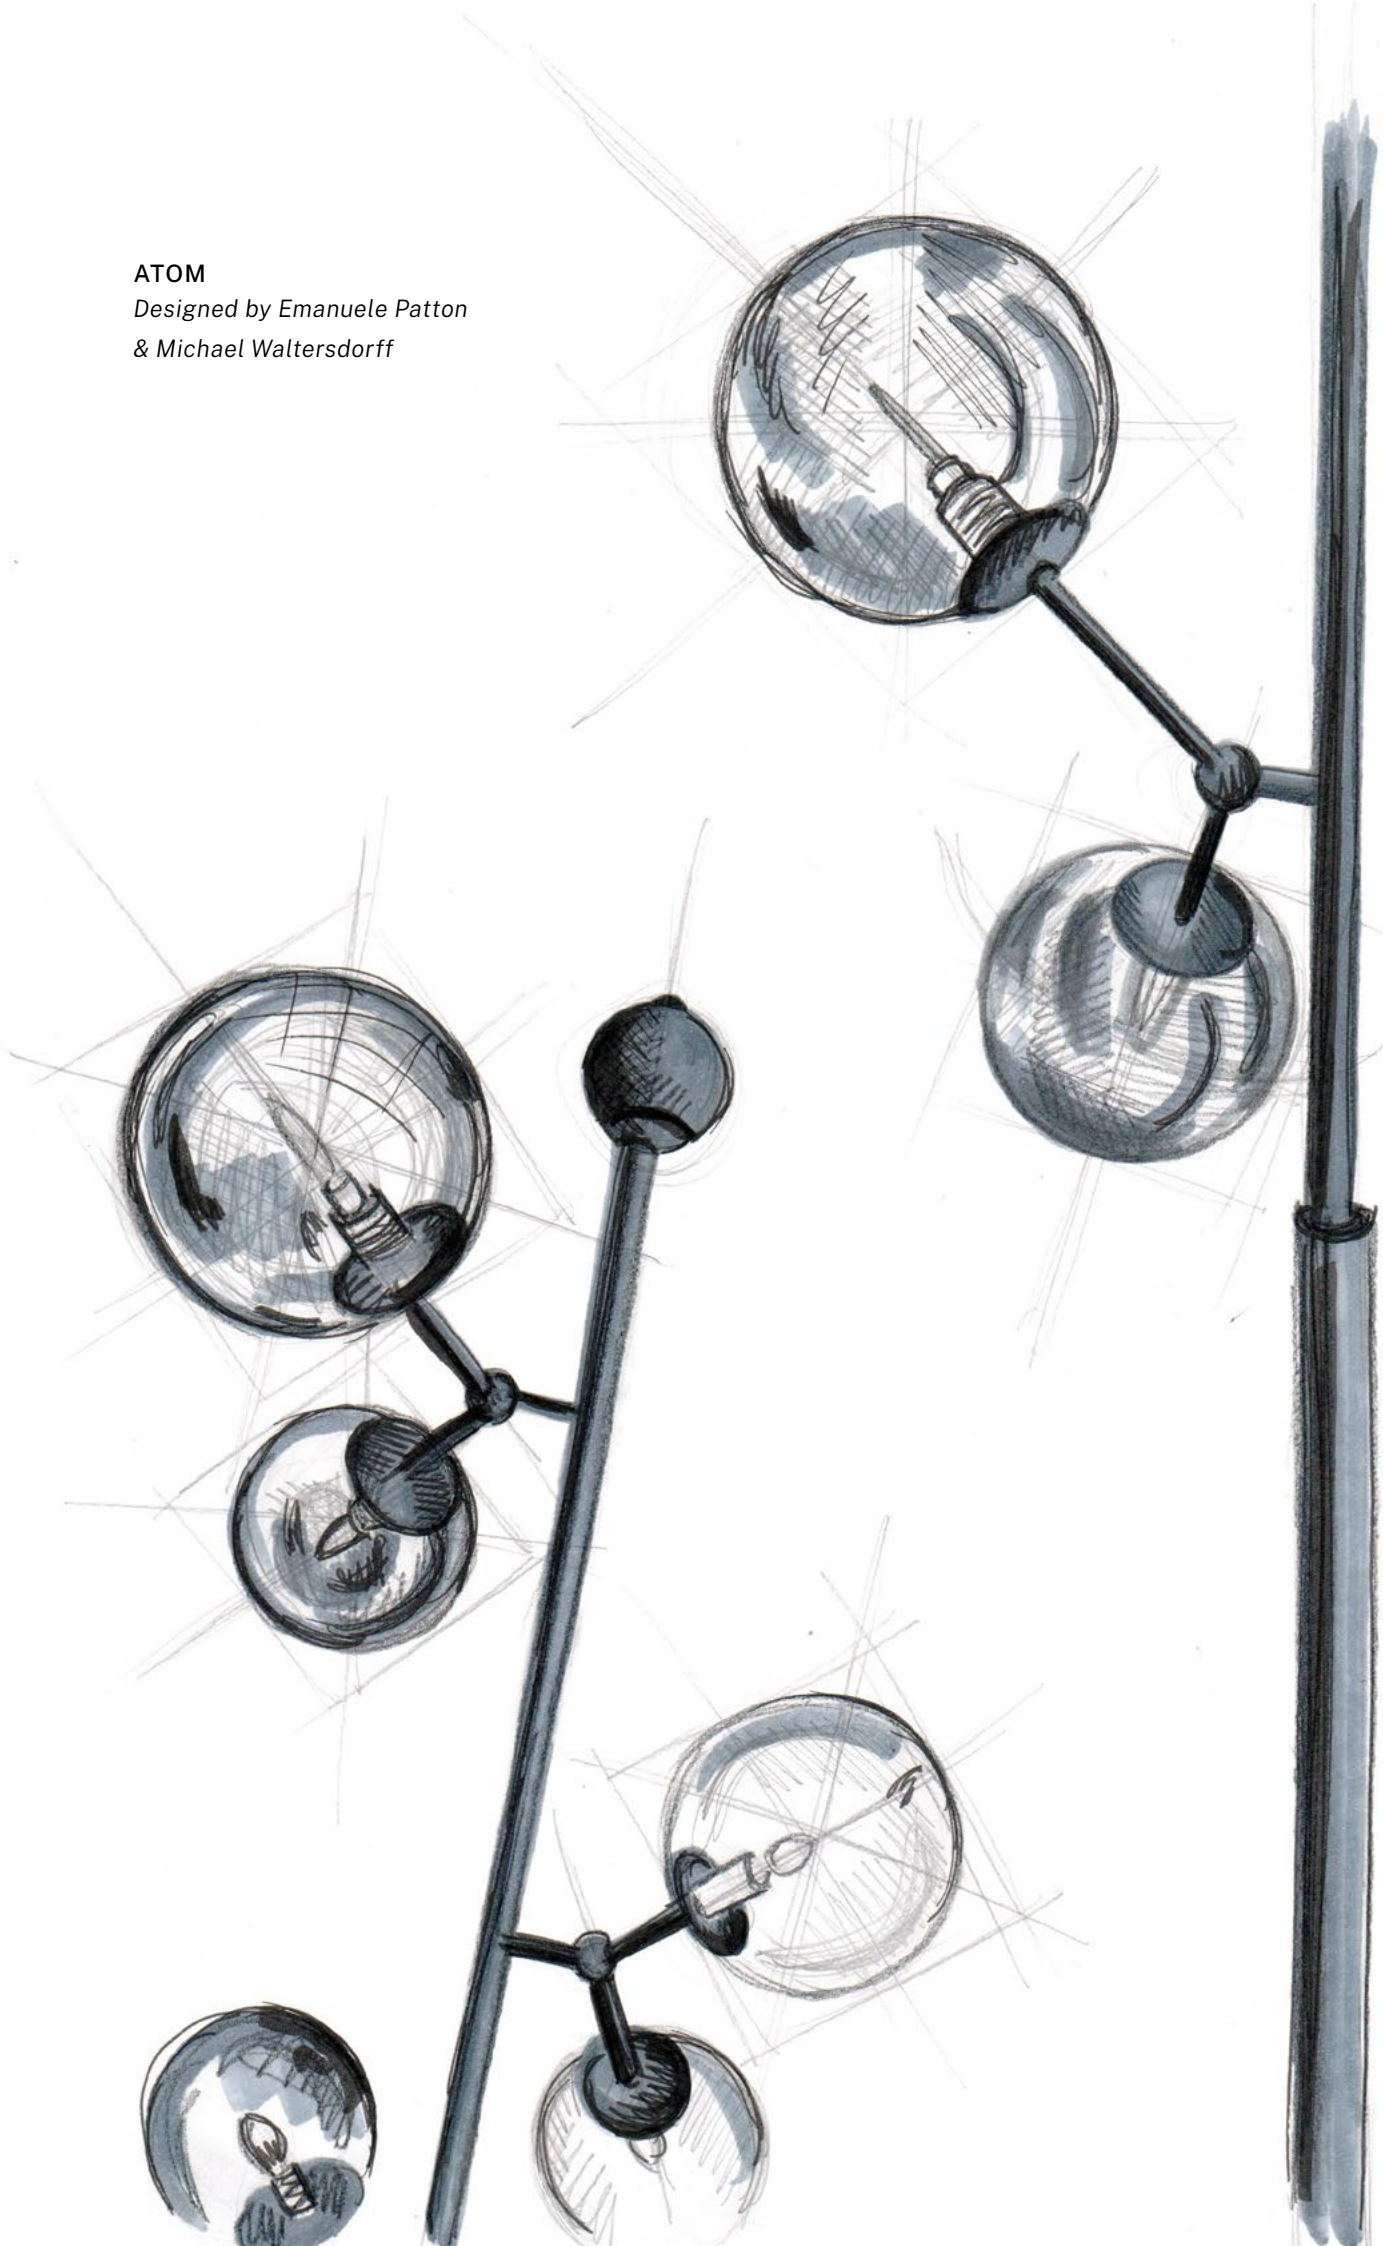

Emanuele Patton

Born in Trento (Italy) in 1979, he has studied industrial design at the Polytechnic of Milan and at the Royal Danish Academy of Fine Arts of Copenhagen.

He worked for more than 20 years in design and advertising firms in Europe. Since 2017 Emanuele is a permanent collaborator of Halo Design where he is involved both in the design of new products and in the company's development strategy.

Hygge battery table lamp

Deep green
Art. 800827

Size: Ø15, H20 cm
Material: Plastic, metal
Color: Deep green, antique brass
Light: 3 Watt, dimmable
Battery: 4000 mAh (5 to 7 hours)
Outdoor: yes, IP54

“ The noun *HYGGE* implies something nice and relaxed, safe and simple. To reflect this concept, I have created this little portable lamp, which with its warm colors, will spread a good atmosphere in any home. ”

Michael Waltersdorff
Designer of Hygge

New Northern

The Northern light is a natural phenomenon that can be experienced in the Nordic night sky. In keeping with the same spirit, the New Northern lamp is our way to light up the dark evenings with family and friends.

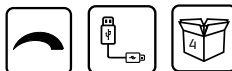

New Northern

Graphite black

Art. 800933

Size: Ø15 cm, H29 cm

Baroni Move
Anthracite
Art. 800889

Size: Ø26 cm, H22 cm
Material: Aluminium, glass, plastic
Color: Opalic, anthracite
Light: 2 Watt
Battery: 4000 mAh (8 to 16 hours)
Outdoor: yes, IP44

Paris

Paris is truly one of those cities where fashion really happens, both in the streets and at home. For this new family of lamps we've taken inspiration from recent trends, where collections are being designed with pleats of dark and natural tones.

*The Mesh pendants
can be easily adjusted
in their inclination.*

Forty-five

The central body of this series houses the light source angled at 45 degrees giving the pendants its name. Featuring black-coated metal details and smoked glass, these lamps are an eye-catching centrepiece for any modern living space.

Cable: 250cm textile

 *ADJUSTABLE ARMS

Bubbles

The apparently simple shape of the Bubbles lamps is actually a deep study of geometry, where proportions are balanced between the three spheres that make up each product. The final appearance offers a play of transparencies and reflections and a wide choice of colors thanks to the combination of different glass and steel element finishes.

Designed by Emanuele Patton & Michael Waltersdorff

Twist

High quality materials and classic shapes in a new look. The lamps surprise thanks to the glass ribs and their twisted pattern. Twist comes in two metal finishes: matt black or brushed brass.

IQlight® Signature Editions

What's in the box?

A fully assembled IQlight lamp signed by the designer Holger Strøm, a certificate with a unique number, an E27 cable set with 250 cm textile cable, a LED light bulb 6,5W.

IQlight Signature Edition 30

Art. 752898

Size: Ø40 cm, H 40 cm
Material: PVC, 30 elements
Color: White
Socket: E27, 6,5W incl.
Cable: 250 cm textile

IQlight Signature Edition 60

Art. 752836

Size: Ø40 cm, H40 cm
Material: PVC, 60 elements
Color: White
Socket: E27, 6,5W incl.
Cable: 250 cm textile

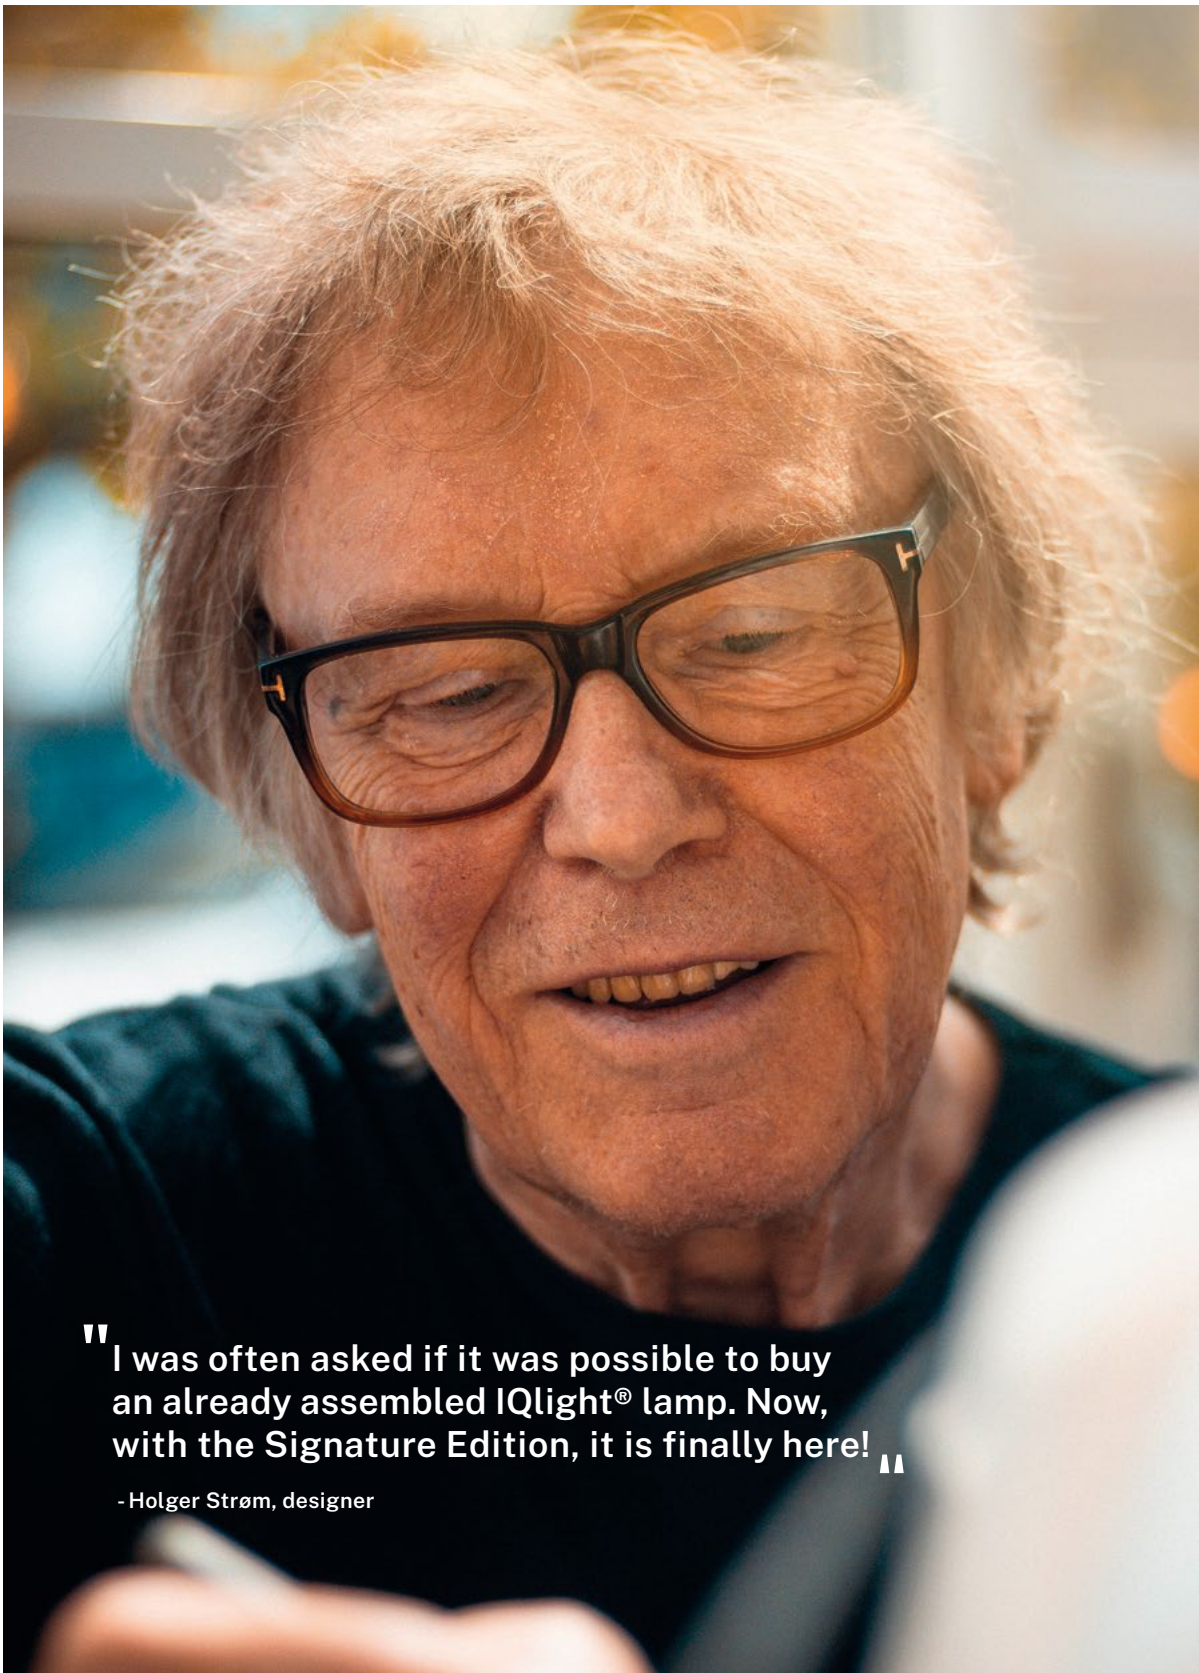

IQlight Signature Edition 90

Art. 752867

Size: Ø40 cm, H40 cm
Material: PVC, 90 elements
Color: White
Socket: E27, 6,5W incl.
Cable: 250 cm textile

“ I was often asked if it was possible to buy an already assembled IQlight® lamp. Now, with the Signature Edition, it is finally here! ”

- Holger Strøm, designer

IQlight® - The History

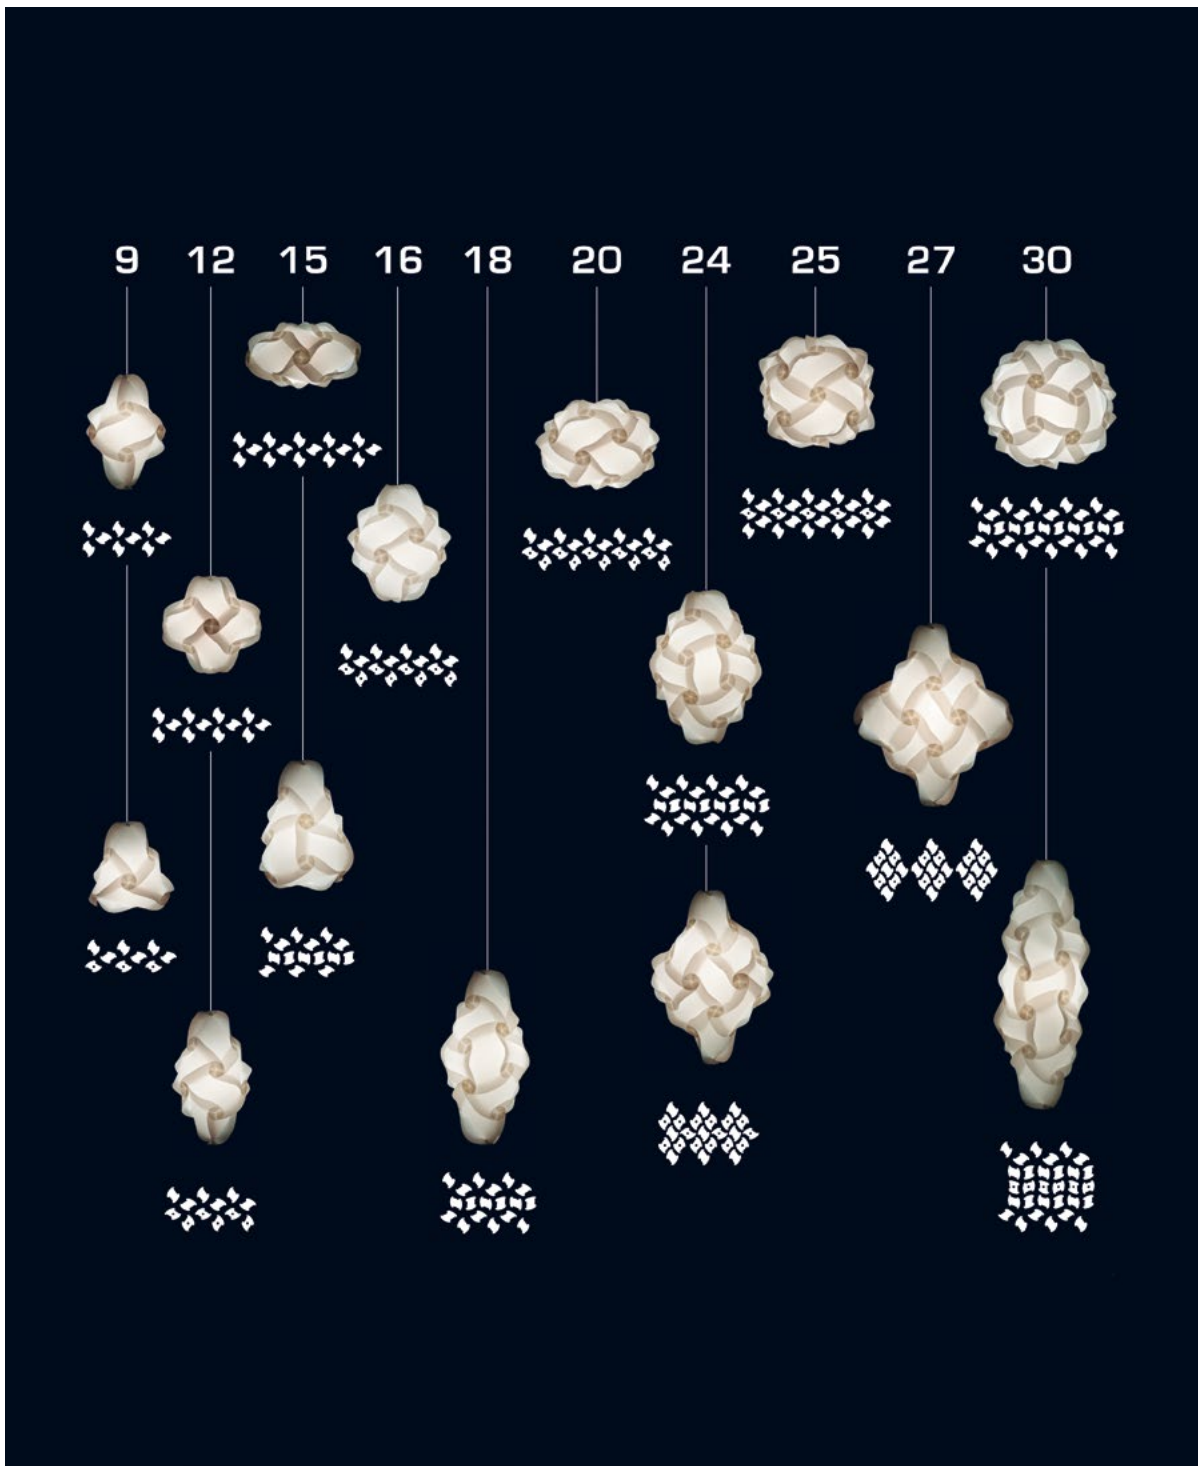

How it all began

The IQ light™ system was designed in 1973 by Danish designer Holger Strøm, who was then working at the Kilkenny Design Workshops, Ireland. He was originally asked to create a modular construction for a cylindrical and a spherical lamp, both to appear to be the same size, to be used in a Christmas display.

"...I used a rhomboid because, of the classic geometry, it's one that gives a more spherical shape. I also realised that by giving the module a curl on each corner I could hook them together, but the result was a bit loose and floppy. So I lengthened the top and bottom of the rhombus, that gave them tension when they were hooked together, and it was that tension I needed for the lamp to hold together..." Holger Strøm, designer.

IQlight® - The Variations

22+ variants with just 1 module

IQlight® is a self assembly lighting system made up of interlocking quadrilaterals. Lamps of various shapes and sizes can be constructed by linking together the identical elements. The standard IQlight® pack contains 30 modules.

The variations shown are proven variants using from 9 to 120 modules. Taking into consideration, that the IQlight® module is available in 6 sizes, that's at least 132 different lamps you can make with IQlight®. But the only limit is your own imagination really. Play around with the small test modules included in the kit-perhaps you can create your very own and unique variant?

Atom

Halo Design's Atom series is inspired by the structure of atoms and their rotating electrons. An in-depth study of modern lighting needs has resulted in a unique collection of malleable lighting, where each lamp offers the ability to customize its appearance. In this way you can easily and comfortably create the most suitable version for your environment.

Baroni

With its beautiful white opal glass and details in brushed metal, the Baroni series is a true classic yet modern at the same time. The high quality of the glass makes sure to obtain a diffuse light that can illuminate in a very effective and decorative way. Baroni is available in various sizes and for different functions: as pendant, table lamp and floor lamp.

Orbit

A compact design made from noble materials. Orbit is all this and more: a family of lamps that incorporates a high technical level with an evocative and simple shape that recalls the perfect trajectories followed by the satellites.

Designed by Michael Waltersdorff

Orbit pendant Ø24

Wrong

Wrong has a curious look that is difficult to express in words. The shape of the mouth blown opal glass is asymmetrical and changes continuously depending on the point of view of the observer, giving the feeling of having several lamps in one. Definitely a family of lamps that must be seen in person to appreciate its aesthetic quality!

Dueodde Metal

A curvy shape and the contrast between metal and solid oiled oak wood gives this family of lamps a unique look. The inspiration for the design comes from the hourglass, an object of great charm whose sand was once taken from the Dueodde beach in Bornholm (Denmark).

Designed by Emanuele Patton & Michael Waltersdorff

Dueodde Glass

The original design: organic shapes and high-quality opal glass for this series consisting of three pendant lamps. Dueodde beach is one of the best beaches of Bornholm (Denmark). Its ultra-fine sand has been traditionally used in hourglasses, from where the inspiration was found.

Designed by Emanuele Patton & Michael Waltersdorff

Ball Ball

Ball Ball—as the name says this is a combination of two spheres, melted together in a sophisticated mouth blown glass. Ball Ball is an elegant series of 3 glass pendants. The soft round organic edges created by the curves of the glass reflects the light and casts the shadows to the surroundings.

Designed by Michael Waltersdorff

Drops

Icicles forms when the conditions are right at winter, snow-covered trees and frozen water, and creates the most beautiful drops, from where we took the inspiration to Drops series in 1996. The unique result is thanks to the silky opal mouth blown glass, which is produced by one of the best glass factories in Europe.

Drops Metal

Inspired by its sibling (Drops in opal mouth blown glass) we challenged ourselves to make a classic, yet modern metal pendant. The result was a series of 4 metal wire pendants, with a unique lid in the bottom in brushed copper.

Vintage

Made of solid wood complete with a turned metal lampshade. The lamp rotates 180 degrees from the wall plate, and the reach can be extended as desired. The head is tiltable, and it can be fixed to the desired position by means of the locking wing nuts. The lamp combines functionality and high-quality materials, expressed through the wood and metal details.

DC

DC is a family of lamps with a simple and Scandinavian inspired design. Thanks to its round shapes and the combination of metal and wood, this range immediately became one of our classics. The veneered oak arch also has a very important function in rotating the shade of the lamps and directing the light freely. The details obtained from solid aluminium complete a unique design that is highly appreciated worldwide.

Århus

The name of this series was inspired by the city of Århus, often referred to as 'The City of Smiles'. The lamps, in fact, have a shape that recalls a smile in the upper part of the metal cover which makes its appearance unique. The combination of the cylindrical wooden element with the metal cover offers not only an interesting aesthetic but also an additional functionality: the possibility of adjusting the direction of the shade in floor and table lamps.

Nivå

Nivå is a series of lamps creating balance between the industrial vibe and nature. The metal shade and white lacquered inside surface ensure that the main part of the light is channeled in a straight direction. The lamps are decorated with a unique circle made of mahogany that ensures a nice transition, where the light will create an elegant stripe of light.

Designed by Emanuele Patton & Michael Waltersdorff

Halo

The Halo series is the result made by a special laser technique, where the aluminium is crafted with extreme precision. The details are often seen on vintage motorbikes, from where we got our inspirations. The series comes with different combinations and colours and is truly a first mover. We recommend using our range of decorative bulbs, to get the right look as you see from the photos.

The Classic

The Classic lamps feature a metal body made of turned steel that is hereafter polished by aluminum oxide sandpaper, which is the best option for polishing hard metals. The 3 different colors, all have deep carvings from this oxide treatment.

1123

In 1994 when Halo Design was established, the company was situated in Copenhagen, Gothersgade no. 163. The zip code was 1123 Kbh K. The first ideas for a multi layer shade were made back then, and from that we found an old sketch made by Michael for this series.

Colors Hygge

"Hygge" is much more than a word for the Danes, it is a philosophy and a mindset that makes us one of the happiest countries in the world.

The Dim LED "Hygge" bulb from Colors is created from that concept and it helps remind you to find moments of joy in every day, also the busy one.
